

Demystifying ACT

Incorporating Acceptance and Commitment Therapy into your treatment approach will have a significant impact on your clinical effectiveness and the well-being of your clients. ACT is a rich, integrative approach, and has been shown to be effective for many clinically-relevant concerns. Because ACT takes a different perspective on psychotherapy, some clinicians wonder how to blend the applications into their own therapy approach. Other clinicians who have embraced the ACT concepts still have questions about certain aspects of the therapy. This webinar will explain ACT in a very clear, concise, user-friendly manner.

Target Audience

Psychologists
Therapists

Social Workers
Psychiatrists

Counselors
Nurses

Course level: Intermediate

Learning Objectives

At the end of this seminar, participants will be able to:

1. Identify the six basic tenets of Acceptance and Commitment Therapy
2. Recognize the problem of experiential avoidance in clinical work
3. Utilize acceptance approaches with each client's avoidance problems
4. Identify how ACT attempts to undermine problematic language functions
5. Utilize defusion exercises to deal with verbal entanglements.

Seminar Schedule

Typically begins at 10:00 AM and ends at 1:15 PM Eastern time. There is one 15 minute break. However, check the webinar schedule.

Our seminars are available in two formats. The first is a live, interactive webinar. If the webinar time is not convenient for you, you can purchase the Home Study version. It is a recorded version of the webinar. You will have to pass a test to earn CE's for both the live webinar and the Home Study version.

Outline

Begin 10 AM ET

Introduction

The nature of human suffering
Language: The double-edged sword
Undermining unhelpful language
Aiming for psychological flexibility and why
Introducing the ACT hexagon model

Acceptance: Strengthening a willingness to have emotions
The opposite of acceptance is experiential avoidance

Experiential avoidance throughout the lifespan
Why acceptance is important

Defusion: Looking at thoughts rather than from thoughts

The automaticity of language
The power of words

The problem with cognitive fusion

Perspective-taking: Understanding the "Self" in ACT

Self-as-content, self-as-perspective, self-as-context
The Observer Self exercise

Break 11:30-11:45 AM ET

Mindfulness: Contacting the present moment

Why being in the Here-and-Now is critical
The relationship between mindlessness and psychopathology
Meditation, mindfulness, and mindful action

Values Work: The heart of ACT

The positive side of language
Identifying core values
Differentiating values and goals
Writing values based treatment goals

Committed Action: Where the rubber hits the road

Defining "commitment" objectively
Integrating evidence-based therapy with ACT

Bringing It All Together

Introducing the ACT Hexaflex
The ACT Question for self-help and case conceptualization

End 1:15 PM ET

Continuing Education Credit

To earn CE's, you must attend the entire webinar. No partial credit is available. For both the webinar and the home study version, you will have to pass a post-test with 80% correct and complete a seminar evaluation to earn the certificate. You can take the test as many times as necessary to pass. Participants will earn 3 CE's for attending once they have completed these requirements.

PSYCHOLOGISTS: tzkseminars is approved by the American Psychological Association to sponsor continuing education for psychologists. tzkseminars maintains responsibility for this program and its content.
