

Sports Psychiatry: Strategies for Life Balance & Peak Performance

Although psychiatrists and other mental health clinicians interested in sports practice already have the necessary general skills to help competitive athletes deal with adversity and the multitude of emotions that sports can elicit, most typically they lack the sports-specific knowledge necessary to truly help these patients and clients. This seminar will provide mental health providers interested in sports practice with the necessary tools to improve life balance and achieve peak performance in athletes and other high achievers. Using the expanding evidence-base from neuroscience and sports medicine and case studies from all competitive levels, eight core competencies as well as important dimensions of sports culture, team structure and function, and the shifting intensity and pressure of competition will be covered.

Target Audience

Psychologists
Therapists

Social Workers
Psychiatrists

Counselors
Nurses

Course Level: Intermediate

Learning Objectives

At the end of this seminar, participants will be able to:

1. Identify the traits of high achieving athletes
2. Describe the scope of practice of applied sports psychiatry & psychology
3. Utilize a five-step model of peak performance and life balance
4. Implement stress control & sleep-energy management routines
5. Discuss common athletic substance problems & interventions
6. Utilize a four-step model of injury recovery

Seminar Schedule

Begins at 10AM EST and ends at 5:45 PM. There will be three 15 minutes breaks spread throughout the day as well as a one hour lunch break.

Our seminars are available in two formats. The first is a live, interactive webinar. If the webinar time is not convenient for you, you can purchase the Home Study version. It is a recorded version of the webinar. You will have to pass a test to earn CE's for both the live webinar and the Home Study version.

Continuing Education Credit

To earn CE's, you must attend the entire webinar. No partial credit is available. For both the webinar and the home study version, you will have to pass a post-test with 80% correct and complete a seminar evaluation to earn the certificate. You can take the test as many times as necessary to pass. Participants will earn 6 CE's for attending once they have completed these requirements.

PSYCHOLOGISTS: tzkseminars is approved by the American Psychological Association to sponsor continuing education for psychologists. tzkseminars maintains responsibility for this program and its content.

SOCIAL WORKERS: tzkseminars (Provider Number 1242), is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program.
